

# Roll-in Dock System

Quality Since 1974

EXCEEDING YOUR EXPECTATIONS THROUGH SUPERIOR WORKMANSHIP AND DESIGN

# Quality Workmanship and Design

Pier Pleasure invites you to take a look at our quality workmanship and design. Pier Pleasure goes the extra mile to meet or exceed your expectations. Extra effort is given to remove defects and sharp edges and corners. This ensures safety, maintains quality standards, and assures your satisfaction. Pier Pleasure's standards for excellence demand high-quality components, such as non-corrosive stainless steel bolts, brass nuts, and aluminum construction.

## Features and Benefits

### Adaptable Inside Track System

- Allows for simple and strong attachment of dock legs and braces.
- Set screw posts can be added in any location for additional support.
- Dock accessories can easily be positioned where you choose.

### Removable Deck Panels

- Makes roll-in sections lighter for installation and removal.
- Easier to repair if damage occurs.
- Titan vinyl panels can be secured in place with optional clips.

### Top Rail is 3 5/8" Tall

- Protects the ends of the deck panels from damage.
- Provides strong structural design for rigorous daily use.
- Allows Pier Pleasure's Sectional Dock accessories to be attached to the roll-in frame.

### Stainless Steel and Brass Fasteners

- No corroded fasteners when trying to make adjustments.
- Maintains a clean appearance.

### Lifetime Leg Screw Warranty

- The nut for the leg screw is made from maintenance-free polyethylene (UHMW).
- All fasteners used in the dock leg are stainless steel and brass.

### Truss-Style Dock

- Gives you the highest strength and lightest weight available.
- Open design allows large waves to flow through the dock section rather than pounding against it.
- The ends of each deck panel are covered by the top rail for a clean appearance and protection against wear.

**Telescoping legs** are attached to an inner rail and adjust from the dock surface making leveling your dock easy. **Durable rotomolded wheels** provide many years of maintenance-free use.

**32' Roll-In Dock System** shown with 8' L, Corner Section, and Titan Decking.

DEPTH*	DOCK LEG
24" - 42"	SHALLOW DOCK LEG
36" - 60"	MEDIUM DOCK LEG
46" - 74"	DEEP DOCK LEG

\* Measure from bottom of lake to water surface.

## Roll-In Dock Accessories

- A) Corner Section:** Increase your deck space by adding a 4' Corner Section. It provides a great spot to attach a bench or ladder.
- B) Dock Ramp:** The perfect approach to your dock, as well as the most cost effective way to add length. The shore-end ramp attaches using the Pier Pleasure hinge system. It pivots up and down and easily detaches for seasonal storage. Available in 4' and 8' lengths.
- C) Ladder:** The all-aluminum ladder extends high above the dock for enhanced leverage when climbing out of the water. Available with 3 or 4 steps.
- D) Set-Screw Post:** Add additional stability by adding a set-screw post in any location.
- E) Vertical Bumper:** Protect your boat. The vertical bumpers are sturdy, hold the boat away from the dock and are easy to tie to. Available in a 4' length.
- F) Shore-End Dock Hitch:** Use your ATV, garden tractor, or any vehicle with a ball hitch to maneuver your Roll-In dock system.  
(NOTE: Dual-Stage Hook System may be needed.)
- G) Benches:** Enjoy the day while resting on your Pier Pleasure bench. The aluminum frame with slanted backrest and plank seating provide a comfortable place to relax and enjoy your dock. Backrest and seating available in cedar and tan vinyl.

### Additional Accessories (Not Shown):

- Bench Canopy
- Canoe Rack
- Corner Protector
- Dock Railing
- Dock Step
- Flagpole
- Horizontal Bumper
- Movable Cleat

## Roll-In Dock Connections

### Single-Stage Hook System

Easily connects sections.

### Standard Bolt System

### Three connection options... Choose what's right for you!

Pier Pleasure roll-in dock sections can be connected using any of the three connection systems:

- Our **Standard Bolt System** allows you to connect your dock sections using non-corrosive bolts and nuts.
- The **Single-Stage Hook System** allows you to connect sections into any desired layout without tools and provides ease of installation and removal of your dock one 8' or 16' section at a time.
- The **Dual-Stage Hook System** gives you the ability to maneuver over uneven shorelines and remove multiple sections at the same time.

Both Hook Systems let you quickly add or remove sections without using fasteners. Disconnected sections can be moved independently to make installation and removal easy.

### Dual-Stage Hook System

Patent Pending

Easily conforms to uneven shorelines.

# Roll-In Dock Surfaces

## Titan Surface Panels

Titan Deck was engineered so your dock will be the last thing on your mind. We know you would rather be having fun with your dock than working on your dock.

Titan Deck is made out of polypropylene, a sturdy plastic, that will take everything you and Mother Nature can throw at it. It comes standard with aluminum stiffeners for extra reinforcement.

All Titan Deck products come with UV protection which will prevent significant fading. Titan Deck will also handle any wild Midwest weather changes and is backed with a 7 year limited warranty.

## Cedar Surface Panels

Western Red Cedar is used to maintain the quality and durability that customers have come to expect from Pier Pleasure. The removable panels are made using 5/4" x 6" planks.

Enjoy the natural look of wood while having all the advantages of maintenance free aluminum frame construction and Pier Pleasure features.

## Popular Dock Formations

### WARRANTIES

ALUMINUM STRUCTURE	15 YEARS
WELD INTEGRITY	15 YEARS
